(Heal Your Heart is a unit of Vaso-Meditech Pvt Ltd Clinical Division)

Cardiovascular disease, especially coronary artery disease is one of the important lifestyle diseases which is getting prominence in healthcare due to its increasing prevalence in younger and older age group and in an urban and rural area. The disease also leads to a high rate of hospitalization and death. The treatment for cardiac disease is primarily preventive care by controlling patients cardiac risk factors like diabetes, hypertension,

obesity, lack of exercise and smoking. When the prevention fails patients are treated with medical therapy and highly interventional procedures like angioplasty and bypass surgery.

Silicon India magazine has done a national survey to identify the promising treatment centers across India in treating cardiovascular disease. Vasomeditech Heal your Heart EECP centers are chosen among the top 20 centers. Heal your Heart EECP centers are unique centers run and monitor by cardiologist and clinical researcher in the field of non-invasive cardiology. The objective of the centers is to treat patients without bypass surgery and angioplasty and to improve their
